

Réalt Na Mara National School

Dunmore East, County Waterford

Administration of Medication Policy

This policy is formulated in accordance with guidelines issued by the Primary Schools' Managerial Body and the Irish National Teachers' Organisation. It was drafted following concerns when the parents of a child, who had had seizures before she joined our school, asked the class teacher to be ready to administer medication as she regained consciousness.

Introduction

The Board of Management recognises that teachers do not administer antibiotics, paracetamol etc to a child who feels sick during the day or week. If a child has to be administered medication for 'a non-life-threatening' illness, the child's parent may come to the school to administer the medication during the day. However, in light of restrictions due to COVID 19 in the school year 2020-21, parents are unable to visit the school and if their child is sick, it is advised that the child does not attend.

- While the Board of Management of Réalt na Mara National School has a duty to safeguard the health and safety of pupils when they are engaged in authorised school activities, this does not imply a duty upon teachers to personally undertake the administration of medication. The Board of Management of Réalt na Mara National School requests parents to ensure that staff members are made aware in writing of any medical condition suffered by their child.

This information should be provided on enrolment or at the development of any medical conditions at a later date.

Medication in this policy refers to medicines, tablets and sprays administered by mouth only.

Content

1.

- The parent/guardian should write to the Board of Management requesting the Board to authorise a staff member to administer the medication or to monitor self-administration of the medication.
- Parents are required to provide written instructions of the procedure to be followed in the administration and storing of the medication.
- Parents are responsible for ensuring medication is in date and replaced when best before date is reached.
- Parents are responsible for ensuring that the medication is delivered to the school and handed over to a responsible adult and for ensuring that an adequate supply is available.
- Parents are further required to indemnify the Board and authorised members of staff in respect of any liability that may arise regarding the administration of prescribed medicines in school. The Board will inform the school's insurers accordingly.
- Changes in prescribed medication (or dosage) should be notified immediately to the school with clear written instructions of the procedure to be followed in storing and administering the new medication.
- Where children are suffering from life threatening conditions, parents should outline clearly in writing, what should and what should not be done in a particular emergency situation, with particular reference to what may be a risk to the child and this plan should be reviewed and countersigned by the child's General Practitioner Treating Consultant.
- Parents are required to provide a telephone number where they may be contacted in the event of an emergency arising.

2. Procedures to be followed by the Board of Management

- The Board, having considered the matter, may authorise a staff member to administer medication to a pupil or to monitor the self-administration by a pupil.
- The Board will ensure that the authorised person is properly instructed in how to administer the medicine.
- The Board shall seek an indemnity from parents in respect of liability that may arise regarding the administration of the medicine.
- The Board shall inform the school insurers accordingly.
- The Board shall arrange for the safe storage of medication and procedures for the administration of medication in the event of the authorised staff member's absence.

3. Responsibilities of Staff Members

- No staff member can be obliged to administer medication to a pupil.
- Any staff member who is willing to administer medicines should do so under strictly controlled guidelines in the belief that the administration is safe.
- Written instructions on the administration of the medication must be provided.
- Medication must not be administered without the specific authorisation of the Board of Management.
- In administering medication to pupils, staff members will exercise the standard of care of a reasonable and prudent parent.
- A written record of the date and time of administration will be kept.
- In emergency situations, staff should do no more that is obviously necessary and appropriate to relieve extreme distress or prevent further and otherwise irreparable harm. Qualified medical treatment should be secured in emergencies at the earliest opportunity.
- Parents should be contacted should any questions or emergencies arise.
